# First Announcement CERCAMS-14 Workshop

## “Ore Giants of Asia”

The Natural History Museum, London  
5 January 2011

Co-sponsored by the Society of Economic Geologists (SEG) / SEG student chapters  
The Workshop is part of the 34<sup>th</sup> Annual Winter Meeting of MDSG, 5-7 January 2011.

### Provisional programme

Presentation topics and speakers scheduled to-date include:

**Craig Hart / SEG Distinguished Lecturer for 2010 (MDRU UBC Vancouver, Canada):**  
*Asia's Golden Architecture – the tectonic foundations for Asian Gold*

**Howard Golden (Kinross Gold Corporation, Russia):**  
*The Kupol Epithermal Gold Deposit, Chukotka Region, NE Russia*

**Valery Maslennikov (Institute of Mineralogy, Urals Branch RAS, Miass, Russia) & Ross Large (CODES, Hobart, Tasmania, Australia):**  
*Sukhoj Log and Kumtor*

**Torsten Graupner (BGR Hannover, Germany), Ulf Kempe (TU Bergakademie Freiberg, Germany) & Reimar Seltmann (CERCAMS NHM London, UK):**  
*Multiple sources for mineralizing fluids: Case studies Muruntau and Zarmitan*

**Richard Herrington (CERCAMS NHM London, UK):**  
*VMS giants of the Altaids*

**Tony Naldrett (University of Toronto, Canada / CERCAMS NHM London, UK), Xie-Yan Song & Hong Zhong (Institute of Geochemistry, Guiyang, Guizhou, China):**  
*The Noril'sk model and its application in the Northwest and Emeishan areas of China*

**Michel Cuney / SEG Thayer Lindsay Lecturer for 2010 (University of Nancy, France):**  
*Uranium potential of CIS and Mongolia, with emphasis on volcanic related deposits*

**Robin Armstrong, Reimar Seltmann with CERCAMS/GEMOC teams & David Crane (Ivanhoe Mines, Oyu Tolgoi LLC, Mongolia):**  
*Oyu Tolgoi & porphyries of Southern Mongolia*

**Alexander Yakubchuk (Orsu), John Schloderer, Julian Woodcock & Andy Wurst (Gold Fields):**  
*Taldybulak Au-Cu-Mo deposit: a new >5 Moz Ordovician porphyry-hosted gold system in Kyrgyzstan, Central Asia*

**Reimar Seltmann (CERCAMS NHM London, UK), Robert Creaser (University of Alberta, Canada), Rustam Koneev (NUUZ Tashkent, Uzbekistan), Vitaly Shatov (VSEGEI St. Petersburg, Russia) & Dmitry Konopelko (St. Petersburg University, Russia):**  
*Almalyk district and its porphyry-epithermal deposits*

**Oleg Petrov, Sergey Shokalski & Vitaly Shatov (VSEGEI St. Petersburg, Russia):**  
*Metallogeny of Northern and Central Eurasia: New International Maps at a Scale 1 : 2.5 Million*

First draft: titles subject to verification by invited authors

**Alexandra Golovko & Farid Divaev (Central Geological-Geophysical Field Expedition / State Geological Committee of the Republic of Uzbekistan, Tashkent, Uzbekistan):**  
*The ore-bearing of the Karashokho diathreme, Western Uzbekistan*

**Dmitry Konopelko, Georgiy Biske (St. Petersburg University, Russia) & Reimar Seltmann (CERCAMS NHM London, UK):**  
*Post-collisional magmatism of the Tianshan and intrusion-related gold deposits*

**Kare Kullerud (University of Tromsø, Norway), Dmitry R. Zozulya (Geological Institute, Kola Science Centre, Apatity, Russia) & Erling K. Ravna (Dept. Geology, University of Tromsø, Norway):**  
*Lamproites, carbonatites and other alkaline rocks in the Tromsø area, North Norway*

**Igor Ussoltzev (GIN Almaty, Kazakhstan):**  
*Review on copper-porphyry deposits in Kazakhstan – past investigations, actual situation, future perspectives*

**Boris Syusura (Eurasian Mining Geological Company LLC, Almaty Kazakhstan), Igor Gorlachev & Denis Berezovskiy (Institute of Nuclear Physics of National Nuclear Centre, Almaty, Kazakhstan):**  
*Ore potential of Kazakhstan in Rare Earth Elements (Lanthanides)*

**Alla Dolgopolova (CERCAMS NHM London) & Boris Syusura (MEC Almaty, Kazakhstan):**  
*Dzhezkazgan-style deposits in Kazakhstan (POSTER)*

**Karel Schulmann (University of Strasbourg, France)**  
*Paleozoic accretionary history of the Central Asian Orogenic Belt (CAOB) and mechanics of oroclinal bending in Mongolia: insight from paleomagnetic and structural data*
