September 22-25, 2018

SEG 2018 Field Trip Itinerary (Preliminary)

FT04 - Uncovering the Bingham and Stockton Cu-Mo-Au Porphyries

www.seg2018.org/field-trips.html#4

Date: September 20-22, 2018

Location: Departing from and returning to
Salt Lake City, UT, USA

Leaders: Rudy Ganske, Kitty Gundy, Ken Krahulec

Included: Two nights hotel (September 20-21),
dinner (September 20), lunch (September 21),
transportation to and from Hotel on day of tour
(September 21).

Not Included: Airfare, ground transportation from airport to/from hotel, breakfast and dinner on September 21.

The plan for this field trip is a morning visit to the Bingham Canyon mine that will include the east waste rock expansion project and the Manefay scarp. We will make 2-3 stops in the pit followed by a presentation in the 3D room. The second part of the day will be a trip to look from an exploration prospective at the mineral occurrences and alteration surrounding the unmined Stockton Porphyry Cu system 17km west of the Bingham Canyon Mine. This field trip would be of benefit for those wishing to view a highly developed Cu-Au-Mo porphyry system along with an exploration perspective from a buried porphyry system (Stockton).

Trip attendees will be required to have the following Personal Protective Equipment (PPE): Steel toe boots, long sleeve shirt, long pants, and will be required to follow all of the Rio Tinto safety standards.

Itinerary

Day 1 - Thursday, September 20, 2018

- 6:00pm - 6:30pm: Meet and greet
- 6:30pm - 7:15pm: Dinner
