The next in the series of international Ni-Cu-PGE conferences comes to Perth, the centre of the Australian metal mining industry and dynamic centre of Earth Science research.

**KEY DATES AND PLACES**

**SYMPOSIUM**
Wed 7 - Fri 9 September, Esplanade Hotel, Fremantle

**PRE-CONFERENCE WORKSHOPS**
Mon 5 and Tue 6 September, CSIRO Kensington (Perth)

**PRE-CONFERENCE FIELD TRIP**
Tue 30 August to Sun 4 September
Windimurra Layered Intrusion, greenstone belts and other mafic intrusions of the Murchison

**POST-CONFERENCE FIELD TRIP**
Monday 11 to Monday 17 September.
Komatiites and nickel deposits of the Yilgarn Craton

**EARLY REGISTRATION DEADLINE**
End of April 2016

**CONFERENCE THEMES**

- Geodynamics and architecture of magmatic Ni-Cu-PGE systems
- Geophysical and geochemical imaging of ore forming processes
- Physical processes of intrusion emplacement, magma flow, sulfide liquid transport, deposition, migration & deformation
- Technologies and characterisation including geometallurgy
- Non-magmatic ores: polymetallic Ni +/- Cu, PGE ore including sedimentary-hydrothermal settings

The meeting will include tours to local laboratories including the world-class analytical and ore characterisation facilities at CSIRO, UWA and Curtin University
