Current Position and Focus (areas of research and/or interest in economic geology)

Senior Project Exploration Geologist, Golden Grove Operations
Helping to determine how structural deformation and host rock architecture controls VMS mineralization at the Golden Grove Mine. Continually helping to improve safe working practices.

Relevant Education/Work Experience

2003-2006: Ph.D. Monash University
2007-2009: International exploration, multiple terranes and commodities
2010-2014: Near mine & district gold exploration, Victoria & Northern Territory, Australia
2014 – Present: Near mine and district exploration, Golden Grove polymetallic deposit, Western Australia

Hobbies and Interests

Outdoor sports, trekking, and camping

Nationality

Australian

SEG Activities (e.g. positions held, former student membership details)

Past student chapter representative
Attendee at past conferences and workshops
Recipient of an SEG student research grant related to my postgraduate studies

Personal Philosophy on Mentoring

I have substantially benefitted from other geologists mentoring me through my career and I hope to help others in the same way.
I think it is always important to apply a keen scientific curiosity and interest to our work, have an attitude of continual learning, and never be afraid of a challenge.

Languages Comfortable Communicating With

English

Other Relevant Information

Community engagement relevant to mineral exploration.
