Current Position and Focus (areas of research and/or interest in economic geology)

Chief Geologist with interests on mineral exploration for:

Porphyry – epithermal Cu-Au and Skarn systems

VMS, Carbonate Replacement Pb-Zn

BIF related high-grade iron ore

Relevant Education/Work Experience

I hold a Masters Degree in Mineral Exploration from the University of Mining and Geology, Sofia. I have 22 years of experience in the mining and mineral exploration industry. This includes 5 years in underground mines in Bulgaria and 17 years international experience in mineral exploration sector. Much of my experience in exploration was gained working as a geologist for Rio Tinto and Anglo American in Eastern Europe, Turkey, Yemen, India, Mexico and Australia exploring for copper, gold basemetals, iron ore and borates.

I'm currently based in Vancouver and exploring for basemetal deposits in Peru and Canada.

Hobbies and Interests

Skiing, hiking, interested in all types of photography, particularly children, faces and places seen on my travels

Nationality

Bulgarian

SEG Activities (e.g. positions held, former student membership details)

SEG Fellow, 2008

Personal Philosophy on Mentoring

Mentoring is a gift that is shared. It is about development and learning for both mentors and those mentored.

I'm happy to share my professional experience with young and keen explorationists.

Languages Comfortable Communicating With

English, Spanish, Russian and good understanding of Slavonic group of languages.
