Current Position and Focus (areas of research and/or interest in economic geology)

Executive General Manager – Global Development for Western Metals, a junior exploration based in Perth Australia. Main area of interest is generation of grass roots and advanced minerals exploration projects for base metals, uranium and gold.

Senior Research Fellow – University of Western Australia working with the Physics department developing gravity and magnetic gradiometry sensing devices.

Relevant Education/Work Experience

BA University of Utah, USA
M.Sc. Leeds University, UK
17 years exploration with BHP Minerals
6 years as Chief Geophysicist for Western Mining Corporation

Hobbies and Interests

Regular running, hockey and basketball, voracious reader

Nationality

USA citizen
Naturalised Australian
Naturalised Irish

SEG Activities (e.g. positions held, former student membership details)

Personal Philosophy on Mentoring

Students and young geoscientists need to be reminded of the inherent interest, fun and collegiality of the profession. The fact that political borders are irrelevant to geoscience is also a key component.

Languages Comfortable Communicating With

French (fluent)
Russian, German, Spanish (conversational)
