Current Position and Focus (areas of research and/or interest in economic geology)

Professor at Ecole National Supérieure de Géologie
Nancy

Geophysics – Structural Geology

Ore deposits – Rheology of two-phase material

Expertise in felsic magma generation from source to emplacement.

Now turning to metals concentration processes, essentially linked with the associated chemistry of the released fluid phase (H₂O, CO₂, S, F, Cl).

Theoretical aspects, but always directly connected with field observations.

Relevant Education/Work Experience

Educated as a geophysicist but always immersed within structural geologists

Not only academic, but currently working with Oil and Mining Companies

Hobbies and Interests

Classical music, hiking, reading

Nationality

French

SEG Activities (e.g. positions held, former student membership details)

SEG Member since 2004

AGU and GSA Member since 1972

Personal Philosophy on Mentoring

I personally find my job very exciting and I would share the benefit with students

Provocative but never negative with students (and colleagues)

Languages Comfortable Communicating With

Français, English, Castellano

Other Relevant Information

Cooperation projects in many countries

European living in France

Accustomed to live with different cultures (USA, Australia, RSA, Japan, Taiwan)
