Interests include business & people management, further education

Nationality

Australian

SEG Activities (e.g. positions held, former student membership details)

Founder (& subsequent President) Adelaide University
SEG Student Chapter

SEGF 11th Student Field Course

Personal Philosophy on Mentoring

I am particularly passionate about helping motivate and drive students and young professionals to achieve personal goals and ambitions they may have within geology. Encourage and assess particular components within geology and/or industry that may be more attractive and well-suited for particular individuals. Ensuring sound industry exposure backed by academic understanding is evident before committing to some career choices and why this is important. I believe a mentor should provide guidance during all stages of development albeit in an academic, professional or personal matter at small or large scales.

Languages Comfortable Communicating With

English

Other Relevant Information

Also affiliated with AusIMM Roxby Downs Branch. Previous committee and active member for AIG (Adelaide Branch). Maintained a strong connection with Adelaide University SEG chapter as an active mentor.
