Current Position and Focus (areas of research and/or interest in economic geology)

Geological consultant in mineral exploration for precious and base metals

Relevant Education/Work Experience

Began with the GSC, excellent mapping training, helped by many a mentor in Vancouver — Cliff Rennie, Joe Montgomery, John Thompson to name a few... Geological consultant and director, Rodinia Geological Services

Hobbies and Interests

Photography, horseback riding, and exploring the world both near and far

Nationality

Canadian (via Ireland)

SEG Activities (e.g. positions held, former student membership details)

Being a mentor with SEG is my first active role. I'm enjoying "meeting" students around the world and I'm glad to help however I can.

Personal Philosophy on Mentoring

People are always the #1 factor in success. Always be objective, see things for what they are, not what they are supposed to be! Never forget the importance of culture when working outside of your own.

Languages Comfortable Communicating With

English, Spanish, French

Other Relevant Information

Many people have helped me along the road, and I would be more than happy to offer a helping hand to new geologists; first hand advice is not available in textbooks, so take advantage and ask lots of questions of all of SEG and other mentors! Most of what I know and use I learned AFTER I graduated – University gives you a solid base, the towers you have to build yourself.
