- Martina Saracino
- Simona Scarpati
- Germano Solomita
- Anna Sorrentino*
- Salvatore Tagliafierro

STUDENT CHAPTER ACTIVITIES

1. Regular meetings

The meetings have been functional to organize the student chapter activities. The main discussed topics were the following:

- Discussion on the future activities;
- Social activities on Instagram and Facebook pages;
- Organization of annual field trip in Sardinia.

2. Field trips

The chapter offered its help to the organization of the annual field trip in Sardinia (2023), linked to the course of Prof. Nicola Mondillo (University of Naples, Federico II) named “Ore Deposits”.

3. Participation in conferences

This year our student chapter has participated in two conferences. The first one is the “45th MDSG Annual Meeting” in Leicester, January 4-6th 2023, attended by three members of our Student Chapter. During the conference, our members presented their works with posters and talks. The second one is the “SEG 2023 Conference- Resourcing the Green Transition”, in London, August 26-29 2023. Four of our members attended the conference and presented their works with posters and talks. Our members have received “benefits for Students” as Travel Grand and Accommodations.

4. Fundraising

Our chapter will apply for the second round of the SEG funding program (Stewart R. Wallace Fund), to obtain a partial financial

support for next year field trip.

5. Website and Social Media

Napoli SEG chapter (<https://www.facebook.com/NAPOLI.SEG/>) continues to be active and is regularly updated with our activities.

Instagram account called seg_Napoli (https://www.instagram.com/seg_napoli/).

Moreover, we propose to establish an official website during the next year.

6. Future Plans

Our plans for the next years are the following:

- Keep attracting SEG official lecturers, but also other academic and industry representatives to our department, to spread the knowledge and raise the interest in an ore deposits career among our young students.
- Continue the fundraising from new potential industry sponsors.
- Organize a field trip in the mining areas of Elba Island.
- Participate in one of SEG Foundation (SEGF)-sponsored student field trips
